

## **LAKE MINNETONKA ASSOCIATION**

### **Notice of Treatment for the Control of Curlyleaf Pondweed, Eurasian Watermilfoil, and Flowering Rush**

Notice is given - the Lake Minnetonka Association will treat curlyleaf pondweed and/or Eurasian watermilfoil, both aquatic invasive species, on the following bays in Lake Minnetonka: Grays Bay, Gideons Bay, Crystal Bay, Phelps Bay, Browns Bay, North Arm Bay, Black Lake, Stubbs Bay, Carsons Bay, and St. Louis Bay.

Invasive flowering rush will be spot treated in various locations throughout Lake Minnetonka. Only EPA/MnDNR approved herbicides will be applied at no more than recommended application rates during April-September 2024.

If a landowner does NOT want treatment to occur adjacent to their property, complete the waiver located at: [www.LMAssociation.org](http://www.LMAssociation.org) or contact the Lake Minnetonka Association:
